**Director: Linda Jo Platt**

**\*\*PLEASE READ AND KEEP THIS HANDBOOK  
ACCESSIBLE THROUGHOUT THE YEAR**

## **Welcome to Community Nursery School!**

**I have prepared this booklet to acquaint you with our pre-school program. Please read it carefully noting that in all dealings with children we all need to maintain a sense of humor and a balanced flexibility.**

**As we know, COVID-19 is with us for the foreseeable future. No matter what procedures and protocols are put in place, there is simply no way to guarantee that COVID-19 or any other pathogen or communicable disease will not enter school. By the very nature of the personal interactions that take place in the early childhood environment, there is always a risk of your child contracting this or any other disease or infection. And again, we will do everything within our power to keep your child healthy and safe at school this year while following our curriculum in this unique time and circumstances.**

**I have highlighted in red the changes for this year as related to NYS and CDC regulations and recommendations for COVID-19. These may change as the year proceeds but this is a first start.**

**Many of the questions you will have as the year goes on are addressed in this handbook so please keep it handy and refer to it often. Please share this information with all persons bringing your child to school.**

**Our program as outlined in this booklet consists of:**

- A developmentally appropriate curriculum for young children which provides a comprehensive program in all areas of a child's development: physical, emotional, social, cognitive and language implemented through play and experiences.**
- A caring, qualified staff members who are educated and experienced in their work with young children.**
- Policies and procedures which enable us to provide a safe, well-organized program for each child.**

**I hope that this coming year will be one in which we will work together in meeting your child's needs. Please feel free to contact me or your child's teachers at any time.**

**Sincerely, Linda Jo Platt, Director**

Other CNS Programs – Extended Weeks and Summer Session**

**Our Mission**

**Community Nursery School was established in 1945 under the sponsorship of the South Presbyterian Church in Dobbs Ferry as a non-profit, non-sectarian community service for families seeking developmentally appropriate pre-school education for their young children.**

**We welcome all families knowing that the inclusion of families from many different ethnicities, religions, cultures, abilities, and family structures enhances our program and the lives of the children who come together here.**

## **The Community Nursery School Philosophy**

**We believe that:**

**Young children learn by doing.**

**Young children need a safe, nurturing, comfortable, fun, physical and emotional environment.**

**Young children need opportunities to develop positive self-esteem, individuality, and a healthy ego.**

**Young children need knowledgeable teachers who engage, encourage, respect, challenge, and model with them and who continue to grow and develop in their work with young children and their families.**

## Governance

Community Nursery School is owned by South Presbyterian Church and operates as a separate entity. The Nursery School Director reviews all major program, budget, and physical changes for approval by the South Presbyterian Church Board of Trustees known as Session. All educational decisions are made by the director and staff of Community Nursery School.

The Parent Committee is composed of the director and representatives of the school's current enrollment. Each spring the Parent Committee sends out a letter to all parents inviting those interested to join the committee for the next year. This committee assists the director in establishing policy and fees for the nursery school as well as planning social events for nursery school families and children. Each class parent member helps maintain communication between the parents and the school. All parents are welcome to sit in on any of the committee's meetings which usually are held monthly on the second Wednesday of each month. **This will take place by Zoom or another electronic meeting forum.**

## Staff

Community Nursery School is fortunate to have a staff of experienced women who come to school each day ready to engage their young students in the wonderful world of pre school. They are dedicated to the education of young children, multi-talented, very busy, and involved in the lives of their communities.

We meet and exceed all standards for teacher –student ratios at the appropriate age levels:

**For 20-21 we have cancelled out TWOS program to allow for more 4 year old programs.**

Three-year olds - 1 teacher, 1 associate or assistant teacher for **8** children

Four-year olds – 1 teacher, 1 associate or assistant teacher for **10** children

We require all staff members to complete 6 – 12 hours of education pertaining to work with young children each year. All staff members are required to be certified in Child First Aid and CPR. Re-certification occurs every two years.

## **Staff Qualifications**

### **Teacher**

Qualifications for the head teacher of the TWOS and THREES program are a BA in Early Childhood Education or a closely related field with substantial teaching experience with young children of pre-school age.

Qualifications for head teacher of the FOURS are a Masters Degree in Early Childhood or Elementary with substantial teaching experience with young children, ages 4 and 5.

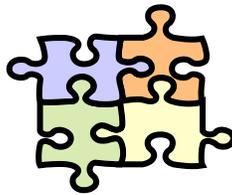

### **Associate Teacher**

Qualifications for an associate teacher are the completion of the Child Development Associate coursework or completion of a minimum of 5 early childhood courses at the college level leading towards a Bachelor or Masters Degree in Early Childhood / Elementary or/and teaching experience with pre-school children.

### **Assistant Teacher**

Qualifications for an assistant teacher are twenty-one years of age, completion of the equivalent of high school, substantial experience with young children, and a desire to seek further education in the field of early childhood.

All of the above must have a warm and friendly personality, be sensitive to the feelings and needs of others, be able to relate well to both children and adults and be willing to fulfill their responsibilities in accordance with the school's educational philosophy.

## **Curriculum**

A developmentally appropriate curriculum for young children is planned to be appropriate for the age span of the children within the group and is implemented with attention to the different needs, interests, and developmental levels of those individual children.

Our curriculum goals encompass experiences provided to meet the children's needs and stimulate learning in all developmental areas – physical, social, emotional, and intellectual. All interactions and activities are designed to develop children's self-esteem and positive feeling toward learning. We use the *Creative Curriculum* goals and objectives as the foundation of our curriculum.

**Physical Development:** Outdoor activity is planned daily so that children can use their large muscle skills by riding, running, climbing on our exceptionally fine play area, learn about

an outdoor environment and express themselves freely and loudly. **Because of the size of our playground we will be able to divide the space to accommodate up to two classes at a time without interacting with other classes. We will be outdoors as much as possible so prepare to bring rain clothes, boots etc. so if we can go out safely, we will.**

**The Play Room will be closed for use because of time restraints and personnel for disinfecting it between classes.** We also have a large indoor playroom if bad weather keeps us inside.

**Fine Motor** - Small muscles skills are developed daily through play activities such as puzzles, pegboards, cutting, painting, play dough, clay and other manipulation activities. Different types and sizes of writing instruments – crayons, markers, pencils - are available daily as children expand their fine motor skills.

**Social Development: Even with the parameters of physical distancing socialization will occur.** Children are provided many opportunities to develop social skills including cooperating, sharing, helping others, and negotiating through activities and centers planned by the staff such as the sand, water and play dough tables, the housekeeping corner, the block area, games and more. Our playground lends itself easily to dramatic play in the boat or playhouse, games on the lawn or blacktop, and just plain fun down the tree house slide, swinging to the tree tops or making pies or roads together in the sandbox, all of which enhances the growth of the give and take of socialization.

**Emotional Development:** Our teachers aid in the development of self-control in children by using positive guidance techniques such as modeling and encouraging expected behavior, redirecting children to a more acceptable activity and setting clear limits. The teachers' expectations match and respect the children's developing capabilities. There is more on this topic under Classroom Management.

**Cognitive Development:** Learning about math, science, social studies, health, and other content areas is integrated through meaningful activities when children build with blocks, measure sand and water or ingredients in cooking, observe changes in the environment, work with wood and tools, sort objects for a purpose, explore animals, plants, water, wheels, sing and listen to music, as well as draw, paint and work with all types of modeling materials that they make themselves.

**Language Development:** We provide children with many opportunities to see how reading and writing are useful before they are instructed in letter names, sounds, etc. at the kindergarten level. Language and literacy are developed through listening to and reading stories and poems, playing with language through finger plays, rhymes and songs, participating in dramatic play and other experiences requiring communication, talking informally with other children and adults, seeing print in use in the classroom and experimenting with writing, drawing and copying.

(Adapted from the National Association for the Education of Young Children's Position Statement on Developmentally Appropriate Practice in Early Childhood Programs

# **New York State Learning Standards for Preschool**

The New York State Education Department has developed standards for preschool which we incorporate into our curriculum. Take note of the word “developing” at the beginning of each standard. Go to [www.usny.nysed.gov/parents/nyslearningstandards.html](http://www.usny.nysed.gov/parents/nyslearningstandards.html)

## **The Five Goals and 21 Objectives for our Twos from The Creative Curriculum**

### **Social/Emotional Development**

To Learn About Self and Others

1. Trusts known, caring adults
2. Regulates own behavior
3. Manages own feeling
4. Responds to others’ feelings with growing empathy
5. Plays with other children
6. Learns to be a member of a group
7. Uses personal care skills

### **Physical Development**

To Learn About Moving

8. Demonstrates basic gross motor skills
9. Demonstrates basic fine motor skills

### **Cognitive Development**

To Learn About the World

10. Sustains attention
11. Understands how objects can be used
12. Shows a beginning understanding of cause of effect
13. Shows a beginning understanding that things can be grouped
14. Uses problem-solving techniques
15. Engages in pretend play

### **Language Development**

To Learn About Communicating

16. Develops receptive language skills
17. Develops expressive language
18. Participates in conversations
19. Enjoys books and being read to
20. Shows an awareness of pictures and print
21. Experiments with drawing and writing

## **The 10 Goals and 50 Curriculum Objectives for ages 3 – 5 from The Creative Curriculum**

**These goals and objectives are aligned along a developmental continuum  
for each stage of development**

### **Social/Emotional Development**

#### Sense of Self

1. Shows ability to adjust to new situation
2. Demonstrates appropriate trust in adults
3. Recognizes own feelings and manages them appropriately
4. Stands up for rights

#### Responsibility for Self and Others

5. Demonstrates self-direction and independence
6. Takes responsibility for own well-being
7. Respects and cares for classroom environment and materials
8. Follows classroom routines
9. Follows classroom rules

#### Prosocial Behavior

10. Plays well with other children
11. Recognizes the feelings of others and responds appropriately
12. Shares and respects the rights of others
13. Uses thinking skills to resolve conflicts

### **Physical Development**

#### Gross Motor

14. Demonstrates basic locomotors skills (jumping, running, hopping, galloping)
15. Shows balance while moving
16. Climbs up and down
17. Pedals and steers a tricycle (or another wheeled vehicle)
18. Demonstrates throwing, kicking, and catching skills

#### Fine Motor

19. Controls small muscles of hand
20. Coordinates eye-hand movement
21. Uses tools for writing and drawing

## **Cognitive Development**

### Learning and Problem Solving

22. Observes objects and events with curiosity
23. Approaches problems flexibly
24. Shows persistence in approaching tasks
25. Explores cause and effect
26. Applies knowledge or experience to a new context.

### Logical Thinking

27. Classifies objects
28. Compares/measures
29. Arranges objects in a series
30. Recognizes patterns and can repeat them
31. Shows awareness of time concepts and sequence
32. Shows awareness of position in space
33. Uses one-to-one correspondence
34. Uses numbers and counting

### Representation and Symbolic Thinking

35. Takes on pretend roles and situations
36. Makes believe with objects
37. Makes and interprets representations

## **Language Development**

### Listening and Speaking

38. Hears and discriminates the sounds of language
39. Expresses self using words and expanded sentences
40. Understands and follows oral directions
41. Answers questions
42. Asks questions
43. Actively participates in conversations

### Reading and Writing

44. Enjoys and values reading
45. Demonstrates understanding of print concepts
46. Demonstrates knowledge of the alphabet
47. uses emerging reading skills to make meaning from print
48. Comprehends and interprets meaning from books and other texts
49. Understands the purpose of writing
50. Writes letters and words.

## Artwork

The work in creative expression for 2s, 3s and 4s is manipulative and oriented toward discovery and skill development. In their art experiences they explore and manipulate materials, use art as exploratory play and often repeat actions. They begin to name and control symbols, see shapes in their work, view final product as unimportant (may not be pleasing to adults) and may destroy product during process.

The paintings, drawing, and constructions your child makes in school are important as a process far more than they are as art products. Remember that your child sees this as an extension of himself. It has value to her because she made it. Look at it with him and help him to share with you the fun in creating it, rather than asking “What is it?”.

## Class Structure

### For 2020-2021 as per CDC and NYS Guidelines

Children must be limited to their stable class group in a specific place or time. We have taken reasonable steps to reconfigure space to limit overall density of rooms for each classroom.

Our classes will have no or minimal contact with one another or utilize common space at the same time to the greatest extent possible.

#### 2020-2021 Classes in Red

<u>Class</u>	<u>Days</u>	<u>Maximum Enrollment</u>
One 2 day morning program for 2s	Mon, Tues	Enrollment: 10
One 3 day morning program for 2s	Wed, Thurs, Fri	Enrollment: 10
<b>One 3 day morning program for 3s</b>	<b>Tues, Wed, Thurs</b>	<b>Enrollment: 8</b>
One 3 day afternoon program for 3s	Tues, Wed, Thurs	Enrollment: 12
One 4 day morning program for 3s with an option for 5 mornings	Mon – Thurs/Fri	Enrollment: 12
<b>One 5 day morning program for 3s</b>	<b>Monday - Friday</b>	<b>Enrollment: 8</b>
<b>Two 5 day morning programs for 4s</b>	<b>Monday-Friday</b>	<b>Enrollment: 10</b>
<b>Two 5 session afternoon programs for 4s</b>	<b>Monday – Th/F</b>	<b>Enrollment: 10</b>

## Day to Day Procedures

### First Days at School

September brings us all a new adventure in watching the future unfold. For teachers, the responsibility, the trust, and the excitement in helping shape young lives are serious, awesome, and joyful tasks. For parents and children, it is a cooperative step toward developing a larger view of the world outside the home. Some of you have been through separations with your children before; some of you have not. Before school begins you will receive several articles on the separation process. Every child is different and will approach the coming September in his/her own unique way so it is almost guaranteed that something in one of these articles will strike the right chord for you and your child.

Nursery School opens its doors in September on different days for different groups. Please consult the September calendar and your Orientation Schedule for exact days and times of visits, 1/2 sessions, shortened sessions, and Parent Orientation.

**Visits:** First visits will occur outside on the playground

On visit and half-session days, 1/2 of the class will attend school for one hour and the other half will attend the next scheduled hour. We have found that starting the children in smaller groups for shorter periods helps them feel more secure about their teachers and their classmates. These smaller groups also allow the teachers the time to become acquainted with each individual child and you a chance to sit with a group of parents feeling just as you may.

### **FOR 2020-2021 SCHOOL YEAR**

**The NYS Emergency Regulations have changed our separation procedures. We have tried to keep most classes intact with familiar teachers where possible. We will email the individual class orientation schedules to families sometime in mid-August. It is our plan to hold as much of our orientation outdoors as possible.**

**The information below is not in effect this year as no one but staff, specialists, and children may enter the building or the playground during school hours. Parents or caregivers may be outside the fence or in their cars if necessary.**

One parent or primary caretaker **MUST** remain at school for the half-session or shortened days. There will be a room (or the hall) for you to wait in with the other parents. Your child will be able to see a familiar face as he/she becomes accustomed to a new room, new teachers, and new

children. Each child will have immediate access to you as often as he wishes. Even at that, some of you may find yourselves right outside the classroom door or even inside the door. That's okay!!

By the time of the first full session, the teachers will know which children are ready to say good-bye for a short time and which ones may not be. Please trust them to understand your fears or concerns and communicate with them although not in front of your child - but by telephone or in the hall before or after class. Even the FOURS, who are usually old hats at this, need to make a transition, so after the visit, their first day maybe scheduled as a half-session or shortened schedule while we get acquainted and re-acquainted.

If at all possible, please arrange for siblings to remain at home during the half-day or shortened sessions. Please delay car pools until the second week of school if your child is not used to this arrangement. Return the background and health forms sent in June as soon as possible. If you need to visit your doctor and it will take time to get an appointment, please send the background form ahead to us.

## Arrivals

**Arrival and Dismissal times involve children and cars - a potentially dangerous combination. Please be careful, considerate, and patient as children arrive and leave.**

**During the first few weeks as we all hone our screening skills and check-in procedures; we anticipate some delays so be patient with each other as we learn from each other.**

### **2020-2021 Arrival Times**

**8:45 AM 4s**

**9:15 M-F 3s,**

**9:30 T-Th 3s**

**12:45 p.m 4s PM Classes**

**The times listed above for the Fours give the staff sufficient time to clean and disinfect their rooms and have time for a break between AM & PM classes. The 4s afternoon classes will begin outside throughout the year for as long as weather allows.**

**We have staggered drop-offs, and dismissals to prevent the mingling of classes in front of the building and in the hallway. A six foot distance **must** be in force during drop-off and pick-up. Staff from each classroom will screen their students at the check-in and take or send the child to the classroom door or outside for handwashing. At the end of the session classroom staff will bring the child to the parent or caregiver physically distanced outside the door at the end of the day.**

**Staff and children **must** be logged in daily at the morning check-in.**

Parents and visitors **must** remain outside the building.

SEITS, and therapists are considered essential workers and may enter the building to provide services.

Separation will be done at check-in screening site outdoors under a tent when the weather permits or in the front hall vestibule. We are seeking guidance on ways to accomplish this while working on how to ease separations for the beginning of school.

We will video, Face time, or Zoom a tour for your child before school begins. If possible, we will have a personal visit one child and adult at a time for a short visit.

AS per NYS Emergency Regulations CNS MUST screen upon arrival all staff members and children. Check-in Procedures and Questions for staff, children, and families are as follows:

1-Any staff or child's temperature of 100 degrees F or higher taken at check-in or in the last 3 days will not be admitted to school. A staff member trained in using a non-touch thermometer will administer the temperature taking.

(If a child had a fever in the last 24 hours and was on Tylenol please do not bring him/her to school until 48 hours fever free without medication)

2-Does the child or any household member have a cough? Shortness of breath? Sore throat?

3-Gastrointestinal symptoms? Diarrhea, nausea, vomiting, stomach pain?

4-New nasal congestion or new runny nose?

5-New loss of taste or smell?

6-New muscle aches?

7-Any other signs of illness such as tiredness, lethargy, change in mood or behavior?

8- Has the child or household member had contact with someone in the previous 14 days with a confirmed or presumptive diagnosis of Covid-19 or someone who is ill with a respiratory illness.

9- Has any family member traveled outside the state from an area, country or state that has been listed by the state as a "Hot Spot"

- **Any YES answer to the above questions must exclude the child or staff member from school that day until symptoms are no longer present. We must act as if every symptom is COVID-19 and err on the side of caution**

**Fever – 48 hours without use of medication such as Tylenol  
Vomiting, Diarrhea – 48 hours**

**\*If household member is exhibiting symptoms of COVID the child is excluded from school for 10 days**

**\*If a staff member test positive that person must quarantine for 14 day. We will close the room and call the Department of Health for further guidance**

**\*We will notify all families and staff members if anyone has been exposed while maintaining the confidentiality as required by law of that child or adult.**

- **CNS is required to participate cooperate in the NYS contact tracing programs.**

Park in the rear parking lot or on the street - **NOT IN THE CIRCLE.**

**Parents and caregivers are not allowed in the building at this time.**

It is important to be on time for school. Most children find it difficult to walk into a classroom of children who have already begun their activities. After saying good-bye to your child, it is most helpful and considerate to leave the parking lot quickly so other parents may park and bring in their children. We have tried to stagger the arrivals and dismissals to ease the parking lot congestion but without your cooperation it is for naught. The far end of the parking lot is used as our bike area and we close the gates at 9:15 and at 1:00

## **Dismissals**

**FOR 2020-2021**

**11:30 AM 4sM**

**3:30 PM 4s**

**11:45 M-F 3s**

**12:00 for M-Th 3s**

The children will be together in the hallway a few minutes before pick-up time. Parents will remain outside maintaining a 6 foot distance from each other during dismissal for security reasons and per NYS Emergency Regulations. If someone other than the parent or designated is picking up, permission is required for those not listed on your background form as having permission to pick up your child

It is so disappointing for a child to go down the path or get into the car and not have you, the most important person in her life, greet her after her day at school. Please end or pause cell

phone calls, other conversations turn off the radio or CD's **BEFORE** we bring your child to you. And please transmit this message to anyone who picks your child up.

**If you are in the circle exit the car and stand beside the car on the passenger side to put your child in the car seat.** It is safer and easier for children and staff if the car seat is on the right side of the car so you do not need to go between cars. If the seat cannot be on the right side please put the child through the right side door and then buckle the child in his seat.

**If the circle is full, please do not wait on the street in line** - it is illegal and unsafe. Please go around the block or park in the lot or on the street and pick your child up at the end of the path by the playground, leaving the sidewalk and path clear. **If you are taking three or more children home**, please pull into the parking lot and wait at the end of the walk.

### **Car Seats**

**Staff members will not put children in the front seat or leave them unbuckled in the back seat because of the law, liability issues and more importantly for the safety of your child(ren).**

**New York State Law** requires that all children under the age of 4 must ride in must ride in federally approved child safety seats attached to vehicle by safety belt or LATCH systems. Children 4 – 7 must ride in approved child restraints systems. All must be in the back seat. Children are at high risk for severe injury or death if seated in front seats with or without airbags. All children under the age of sixteen **MUST** wear a seat belt.

### **Car Pools and Play Dates**

You must notify us **by email or phone call** if your child will be picked up by someone else. Without such notification we can not let your child leave until we contact you.

## Art Bags

When your child first enters Community Nursery School, he or she will receive a brand new canvas bag we call the **Art Bag**. At the end of each week or more often depending on the class, the bag will be filled with art work, notices, newsletters, etc. We ask that this bag return to school each day to be refilled. No other bags are necessary until winter clothes need to be brought to school. **Please do not use backpacks for school.**

## Communication

**Communicating with each other is at once, one of the simplest and one of the most complex things we do each day.** And we never seem to have enough time to share all the things we want to let each other know. While recognizing the limits that our interactions will have at drop off or pick up, communication is the key to a successful nursery school experience as we begin to forge a partnership between home and school.

**Given the parameters of social distancing the staff will communicate with you via phone, email or electronic calls such as Facetime and Zoom for weekly updates and discussions as needed.**

In most instances we prefer not to discuss your child in front of him. If necessary, the teacher will get coverage after children have arrived and discuss your concerns in the office or elsewhere if a phone call just won't work. Discussions in front of your child are usually not productive and can cause embarrassment or anxiety for the child so wait until you have a moment to call or arrange a time to speak with the teacher in person away from the class. **Please feel free to contact her at any time. Regular communication in person, by phone, e-mail, or letter between you and your child's teacher is vital in building mutual understanding.**

Parents and children have a special relationship. At times, children will tell you things about themselves or their experiences at school that they have been unable or unwilling to discuss with us. If your child shares information with you that you feel could help us to be more effective, please share that information with us. If you have concerns, needs or suggestions please call your child's teacher or the director at school or at home. Please keep in touch with your child's teacher by phone or note or e-mail about events in your child's daily life - a parent's trip, a family illness, a special vacation, etc.

**The teachers' phone numbers (e-mail addresses if available) will be available from your teachers at our Orientation Night to be conducted by ZOOM. We encourage you to call if you just need to check in or discuss something of concern to you.**

**The teachers write weekly newsletters about events in the classroom.** These newsletters are intended to keep you informed and involved in your child's classroom activities. This information gives you a starting point for conversations as well as finding out what really stirs his interest. You can enhance and extend this interest in the curriculum in many ways. At home you can re-read the books we have read, sing the songs (Who doesn't know "The Itsy Bitsy Spider?"), glue, cut, paint, make play dough, cook, explore the grocery's vegetable section when we make soup, etc. Although we have planned curriculum there are many times when the children have another interest and we go there, so outlines of what our day may be, much before it happens, are not always reliable indicators of what the future will bring that week.

**The director puts together a weekly emailed newsletter** filled with dates, local news and informative articles on issues and topics for parents of pre-schoolers.

**The office staff produces** a directory of all students and staff about 3 weeks into the school year. Because of reproduction costs and time one directory per family will be distributed. Updates will be sent out as changes occur.

## Conferences

**For 2020-2021 school year. All conferences will be conducted by phone or through electronic face-to face devices as per the NYS Emergency Regulations.**

Conferences are a more formal face-to-face time when parents and teachers can share information and observations about each child. You as parents have important knowledge of your child's history, temperament, characteristics and habits, your goals and dreams for his/her future, your child's culture, family practices, structure and more. Our teachers have had training and education in child development as well as experience in working with children in groups. That experience has given our teachers the opportunity to see many different children over time and informs them of the wide continuum of children's development, behavior and temperament. Parents know the most about their individual children; teachers know the most about children in general. So together what a great partnership we can forge with and for your child!

For the 2s, we schedule 2 conferences ; the first after children have settled in and one mid-year. Parents are in the classroom on a regular basis and the teachers are always available for conversations at home or at school when needed.

For the 3s, we schedule 2 conferences a year, The first conference, in beginning of the year, once the class has settled in, is a time for us to gather more information about your child and his/her world. The second conference is held in March when the staff shares with you their observations. At that time, we will share with you what we have learned about your child and any goals for

your child for the remainder of the year. A third conference may be held in May on an as needed basis.

For the 4s, the first conference in October will gather information from you, address their growth and plan our mutual goals for them. The second conference in January will be a mid-year check-in. At the conference in May we will share together how those goals have been met as kindergarten approaches. This third 4 year old conference is optional, a summing up, a chance to review the year and say goodbye.

It is very important that you take advantage of these times so that we can work together to make the best possible experience for your child.

**Our staff is available all during the year, early mornings, after school by phone or e-mail if you have concerns or questions.**

## **Classroom Visits**

**2020-2021**

**Adults other than staff are not allowed in the building while children and staff are present so the following section on Classroom Visits will be on hold for the time being. We are allowing a quick 10 minute individual visit by scheduled appointment during the first week of school.**

In the beginning of the year we welcome you to stay and participate in the separation process. As the year goes on, we welcome you to the classroom on many other occasions such as birthdays, Me Museums for the 3s, Parent Partners for the 4s, and other celebrations where an extra pair of hands will be welcomed.

Some children will want their parents here. Some won't. Some children will ignore their parents; some won't want to share their parents. Some behaviors - your child's and others' - may change when a parent enters the classroom to stay. Some children may want to show off, stake out territory, monopolize you, and some children may find it difficult to follow the routine of the class when a parent visits. All of the above and more are very normal.

As parents some of you will enjoy every minute; some of you may be distressed at some behaviors. Please talk to one of us for a fuller picture of the developmental behaviors. I caution you to not take out of context the behaviors of their ages and stages in a group setting.

Understand that what you will see and experience is behavior necessary and normal for the various age groups to grow and experience social group behaviors. So be very careful sharing what you may perceive as negatives with other parents about individual children. It isn't fair; it's usually not the whole story and it can be harmful.

After the beginning of the year when our separation process has ended, most classes need time to develop cohesiveness, trust in the teachers and a scheduled routine. And it is a time when other visitors are coming to see the school much like you did when you first started the nursery school process. During this time, we will ask that visits be limited to birthdays only, although we will be flexible when in the best interest of a child. We need to keep in mind that nursery school is a time for each child to become a part of a group for a few hours a week and that there are many hours at home for you to spend with your child.

A cautionary note: Having a parent visit is a special event and too many special events may disrupt the routine. Some classes easily ignore visitors and others are thrown off by them. The teacher is the best person to make that assessment. We all understand your interest and desire to be a part of this new experience. Some of you would love to be here often and others would find it difficult. We need to be aware of equity for each child and therefore will ask you to be understanding if your requests to visit more often are unable to be granted.

## Classroom Management

**Emotional development, like all other learning, takes time and learning opportunities.**

Young children are developing self-control and learning what behavior is acceptable and what behavior is not acceptable. How that is done may differ from the 2s to the 5s depending on their developmental needs and understanding. The 2s and 3s do not always understand the concept of sharing but we address and model it - all the while having two or three duplicates of the same item close by. The 4s understand the concept of “taking turns” – usually when it’s their turn but may still need adult encouragement to give another child a turn.

Aggression is a normal expression of emotion in young children because they are just beginning to learn acceptable ways to channel their anger. This behavior may include hitting, throwing things, name-calling, spitting, biting, pushing or pulling, threatening to not invite one to the birthday party, destroying property or taking someone else’s possessions. What happens when a child becomes aggressive can be frustrating and disturbing to adults, but we also can see it as an opportunity to teach, a chance to model self-discipline and character.

Our program recognizes the importance of dealing with aggressive behavior. Teachers help children find acceptable ways to express their anger, negotiate to get what they want or need, and handle aggression directed toward them by their peers.

We encourage children to express their feelings in words and to negotiate resolutions to conflict. We facilitate conversations between children when problems arise. We suggest words that help communicate the children's feelings. In time, with adult support, they are able to use these social skills to solve their own problems. Here are a few things that we do in the classroom that may work at home for you as well.

**We have routine:** First and foremost, all children thrive on and need routine. It helps them order their world and feel secure and safe, knowing what is going to happen next.

**We have clear and consistent limits:** We set and discuss rules and consequences. Rules should be clear, simple and few. We have one simple rule: **You may not hurt yourself, others, or things.** If a child has hit another child or is about to, the teacher kneels and calmly states: "I cannot let you hit Ben. We don't hit people. I know you are angry. Can you tell me why?...OK, how can you let Ben know that you want to use the fire truck?"

**We offer acceptable choices and re-direction:** Choice is a regular part of our classroom practice. It also can be used to diffuse a potential power struggle such as clean up time - "Would you like to put the blocks or the puzzles away first?" ; " I could help you put away the blocks. Would you like that?" ; getting dressed - "Would you like to put your hat on first or after you put on your coat?"

There are times when a child loses control no matter what we do and then, with the adult, a walk out in the hall, a visit with Mrs. Platt's fish when they are in residence, or a moment or two of quiet is just what may be needed to provide a few minutes to calm down and re-group. We do not use time-outs or exclusion in the spirit of punishment. The point here is to give the child an opportunity to regain control in a supportive environment. A positive attitude on our part is the best teacher of all.

**Food**

**We are a peanut and tree nut free school to protect the health and well being of those children with severe and life threatening reactions to these foods. It travels on shoes, unwiped mouths and sticky hands throughout the school and cannot be controlled.**

## Snack Time 2020-2021

**Snack and drink will be brought by each individual child to diminish the need for staff to handle food, napkins and cups.**

**We ask that parents pack easily opened containers of food appropriate for snack following our current snack guidelines such as no peanut or nut products including NUTELLA , no candy, no chunky hard foods considered choke -able such as pop-corn, carrots, etc.**

Children bring a bag or box containing a snack and water in a tightly capped container made of plastic NOT glass. The plastic cups with a built-in straw are best; sippie cups are not appropriate at this age as they impede oral motor development. Snack times are usually timed about the middle of each session. When selecting foods for snacks for your child, please consider those low in fat, sodium and sugar – that’s why water is best. It may take a few extra minutes but it is worth your time to make a half-sandwich of cheese, tuna, etc., a piece of fruit, a container of yogurt (no tubes of yogurt please) or home-baked breads or muffins. The Parent Committee has written a list of suggestions for snacks that will be distributed early in the year. **The only mandatory restriction is our policy of no peanut or tree nut products or candy at school.**

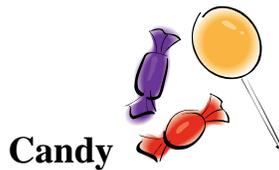

### Birthdays

**To celebrate a birthday only outside food allowed will be in commercially packaged individual servings such a sealed tray of cupcakes, ice cream cups, ice cream sandwiches, yogurt cups. And we will use a simulated candle bto click off as blowing on a cupcake isn’t what we are doing probably ever again.**

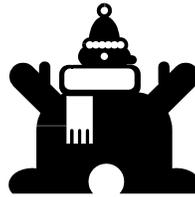

Birthdays are special events for children of all ages. We celebrate every child's birthday at snack time. A summer birthday may be celebrated during the school year as a special day. Refreshments should be simple and easy to serve, i.e. cupcakes, brownies, ice cream cups, etc. **Hint:** Most children really don’t like thick frosting and whatever you bring, **please bring the exact same thing for each child.** For example: 6 vanilla cupcakes and 6 chocolate ones for 12 children translates to 9 children who want vanilla and only 3 want chocolate. Solomon isn’t on staff.

This celebration is NOT a birthday party that you hold at home so while you may bring special packaged unsealed napkins or plates, please do not bring balloons, party favors, noisemakers, candy or goody bags. These are **not appropriate** for a party at school. **If you are planning an outside party PLEASE MAIL invitations or thank-you notes. The teachers have been asked not to hand out personal mail.**

## Candy

It is our policy that no candy will be given to children at any time at school including packed in their snack brought from home. Please do not bring candy to hand out at school including birthdays and all holidays such as Halloween, Hanukkah, Christmas, Valentines Day including valentine bags, etc. Allergies are our biggest fear, then comes choking, and then respect for others. One family's feelings about candy for their child invariably conflicts with another family's view. All candy sent in will be returned to you.

## Clothing

**MUD, PAINT, GLUE, CLAY, FINGER-PAINT** - Hopefully all of this will wash out. **But** nursery school clothes receive a lot of wear and tear. Make sure the clothes your child wears to school are not covered by "keep them clean" restrictions. When your child dresses in play clothes he or she feels free to participate in all activities with no restrictions. On any given day your child may play with paints, playdough, sand or water; make playdough or soup or breads.

We suggest clothing that encourages your child to become more independent in dressing and in toileting. Too many or too difficult snaps, buckles and buttons may look smart but are unwise when children are becoming more self-reliant in dressing.

**Until further notice we will require staff and children to change shoes after entering into a pair of slip-on shoes such as cros or a reasonable size slipper to use in the classroom. When possible we will spray shoes with an alcohol solution as well.**

**Please bring outer rain gear and when needed warm appropriate winter gear for your child as we will be outdoors more than usual this year.**

Rubber soled shoes will allow a greater margin of safety on our outdoor equipment. Sandals and party shoes are unsafe outside for a multitude of reasons. **No open-toed shoes or clogs can be worn on the playground.**

**In winter weather** every child should bring snow pants – not a one piece snowsuit- and boots every day since we continue a balanced indoor-outdoor program throughout the entire year.

Please purchase winter boots which can be pulled on or stepped into easily: not galoshes. Rain boots are not warm enough for winter. We need shoe boots which replace the shoe, not go over it. Children who wear shoe boots to school will also need to bring shoes or slippers to wear for inside play. These may be kept in the cubby throughout the winter.

Children are often very proud that they can put on their coat, their boots, and mittens, so when the season arrives, give them time and assistance to learn and practice those skills - a great esteem builder. Not to mention that teachers dressing multiple children in snow pants and boots will appreciate all the help they can get.

Wool-like, flexible mittens keep hands warmer than gloves and are more flexible than the snow/ski type. If they fit well, the ski type is good in snowy weather on the playground.

No scarves please. They can get caught on playground equipment, pulled by another child or tripped over. If you can find neck warmers, they are the best alternative to scarves.

### **Change of Clothing in Cubby**

On the first visit day you will receive a large Ziploc bag in which to place a complete change of clothing: (socks, shirt, pants, underwear). This bag will be in the cubby at school to use in the event of spilled juice, active water play, toileting accidents, etc. When soiled clothes are sent home, please replenish the bag the next day. Replenish this bag for the different seasons. Shorts on a blustery January day just won't do.

**PLEASE LABEL ALL SCHOOL CLOTHING for easy identification. Leaving it up to children to identify clothing which they may not be interested in or may covet is not as reliable as labels.**

**Diapers**

**No diapers or training pants will be changed at school. If your child needs changing, we will ask you or the caregiver to pick up and change your child in the car or at home.**

For the 3s and up, it is our custom to ask that no diapers be worn during school hours. This statement usually sends about half of the 3 year old parent readers into a panic. Calm down, take a deep breath and keep reading.

Our facilities and staffing for 3s just are not geared to change diapers on a regular basis. We ask that you dress your child in training pants and put several extra changes in the cubby. As teachers of young children, we realize that toileting accidents will happen and we will be as supportive, caring, and understanding in these circumstances as we hope to be in all others.

**However, whether your child wears diapers or training pants, parents of 3s and up will be asked to come in to change children who regularly wet or have bowel movements during school time.**

Most children by the age of three will be ready to wear underpants for the school day but some may not. Here are some tips from Penelope Leach's book YOUR BABY AND CHILD to help you and your child get ready.

- 1. Take your child out of diapers altogether in the daytime. Those accustomed wads of padding may be concealing the whole business from his attention.*
- 2. Make it clear that you want her to use the potty or toilet. You may have been so anxious to avoid toilet training pressure that you have quite neglected to convey this message.*
- 3. Make sure that he sees family and friends using the bathroom. You do not want to rub his nose in the fact that everybody else stays dry, but imitation can be a great help.*

Ellen Galinsky in her book THE PRESCHOOL YEARS says, "As always, it is more effective for the child to feel he or she is accomplishing something than to feel acted upon or forced into it. You can create a partnership by asking in the morning, "Would you like to wear underpants or diapers?" or "What day will you wear panties -- Tuesday or Wednesday?"

Use the weeks before school opens to begin establishing a toileting routine. Try not to tie together the beginning of school with toileting. The issues are separate; they really are although you may not feel that way now. The summer is a great time to introduce underpants for a period of time each day when getting wet doesn't mean getting cold. Begin putting on underwear that will feel uncomfortable when wet and dirty. I know it's inconvenient and messy for a couple of weeks, but the results are worth the effort. And as important a step this may be for you, your child will also feel a wonderful sense of accomplishment and growth.

For those of you with fall birthday children, this may a gradual process over the next few months and we are certainly cognizant of the fact that all children regardless of their age will not always march to the same drummer on this and other issues so we will all work together on a transition that always takes place sooner or later.

## Health

**Please read the screening criteria for symptoms under ARRIVAL which will be used for entering or exclusion from school**

**Please call the school when your child will be absent for any reason.**

**Today it is especially important for the safety of others, staff and children alike that you take great care in deciding whether or not to send your child to school. Please do not bring your child to school if you suspect he/she is "coming down with something" or if he/she has had a fever 100 or higher, diarrhea, or vomiting within the last 24 hours or can answer YES to any of the screening questions**

### **BEFORE RETURNING TO SCHOOL**

**Your child must be fever free for 72 hours without use of medication such as Tylenol Vomiting, Nausea or Diarrhea must have subsided for 48 hours after onset. We may request a doctor's note for re-entry.**

When over 50 children gather in one place at one time, it is very likely that contagious ailments such as colds, coughs, sore throats, and flu will be passed around. However, if some practical guidelines are followed, we can keep illness at a minimum.

Many illnesses are most contagious in early stages. Very runny noses, bad coughs, and lots of sneezes spread colds very quickly. Let such symptoms diminish before sending your child back to school. If your child has an allergy condition which results in these symptoms and he/she is not contagious let the teacher know this too. Please notify us if your child has been diagnosed with a contagious disease such as strep throat, conjunctivitis, chicken pox or even lice so that we may alert other parents to the symptoms. We have no provisions for individual children to remain indoors during outside play so if you do not wish your child to play outdoors because of the weather or health reasons, please keep him/her at home that day.

**If your child becomes ill at school with any of the symptoms listed for COVID-19 as noted in the screening questions, we will ask you or your designated person to pick up your child within 30 minutes. Your child will be in an isolated room with one of his teachers until your arrival. A physician's note may be necessary for re-entry into school. See above for guidelines for returning after a fever, and any gastrointestinal issues.**

Pursuant to New York Education Law 914, every child entering or attending school in the State of New York must be immunized against communicable diseases listed in public health law

2164. However, not all school children are immunized. Public Health Law 2164 provides exemptions to the immunization requirement where immunization would be detrimental to a child's health, or where a child's parent, parents or guardian holds a sincere religious belief which is contrary to immunization practices.

Please be advised , therefore, that anyone working, visiting, participating and/or attending Community Nursery School or any other school in the State of New York, may come into direct contact with an un-immunized child and/or adult.

**For obvious reasons, if a sibling is ill, please do not bring him or her into the school.**

### **Holiday Policy**

The Community Nursery School acknowledges those holidays that are important in the lives of the children and their families as well as those holidays that are culturally significant to classroom curriculum goals. We want to reflect children's lives, the difference and sameness of us all, and expose children to other cultures as they grow and learn. Our curriculum will reflect equally all holidays acknowledged and celebrated in the secular versions by our families. Religious explanations are best left to the family setting. Each celebration will be limited in time and scope.

### **Emergencies**

**The emergency contacts must be reachable and able to pick up your child within 30 minutes of notification.** We have asked you to fill out an emergency notification form **online** which lists the names of two people whom we could call in the event of illness or accident when you cannot be reached. It is extremely important that the names of these emergency people be kept current. Please notify us if these forms need to be changed or updated during the year.

We also ask you to fill out an emergency/disaster form so that in the event of evacuation for any reason, you or your caregiver will know where to pick up your child. These forms will be included in your summer packet.

## Items from Home

**NO ITEMS FROM HOME MAY BE BROUGHT TO SCHOOL.** Your child should be encouraged to leave her toys at home unless specifically requested by the teacher. This helps prevent mix-ups, misunderstandings and grief over lost or broken toys. There are exceptions such as security blankets, needed friends, etc. The teachers should be made aware of your child's needs. However, under most circumstances it is not appropriate for toys to be brought in to school. A different toy every day does not fall under the needed category and just think if every one wanted to bring in a toy! **NO PLAY WEAPONS ARE PERMITTED AT ANY TIME**

## Parent Committee Events

**To our utter sadness at this time all events and gatherings are on hold**

Below is a brief description of some of our events planned by members of the Parent Committee.

**The Annual Halloween Hoot for the 3s and 4s** is usually the last Saturday in October. Dads OR Moms and children come dressed in costume WITHOUT MASKS, or EXCESSIVE MAKE-UP or WEAPONS - repeat - WITHOUT MASKS or EXCESSIVE MAKE-UP or WEAPONS to spend an hour sharing their costumes, doing simple crafts and of course the HOOTenanny Songfest. The old tradition of only Dads coming (because they were the working parent) has long gone so either Mom or Dad is welcomed but just one of you. If a parent is not available, another adult or teenager is welcome BUT only one adult per child due to space limitations. (The Twos do not attend the Hoot for the simple reason that masks, costumes and most TWOS are an unwise combination especially in an unfamiliar situation like the HOOT so early in the year – this may be true for some 3's as well.)

**Parent Parties** – Our goal is that each class (sans children) holds a potluck-style party in the fall for the parents of those class members and staff, usually in the home of one of the class families. It is a great way to meet the parents of the children you hear about at the dinner table each night. And the food and company are always great.

**The Fours Winter Party** is held on a Saturday in February or March for the entire family with a little entertainment and a lot of food.

**Our Annual Spring Fundraiser is held on a Saturday evening in April or May.**

**The Family Picnic and Carnival** held in June is an old-fashioned affair on the nursery school lawn featuring a picnic supper, games of skill and chance such as The Ball Toss, The Fishing Pond, Milk Bottle Knock-down, Pin the Tail on Barney, as well as chalk drawing, face painting and spin art, plus entertainment for the whole family. A great way to end the year and say hello to summer.

## Miscellaneous Information

### After Hours Care by CNS Staff

Parents who wish to employ our teachers and assistants to care for their children outside of school please note that all staff members who work at school have been screened and hired based on their suitability to work in a group setting. Parents who choose to hire our staff must realize that they do so at their own liability. Please do not use the school phone number to arrange babysitting with an employee. Program liability coverage is only in effect during the employee's working hours. A waiver must be signed by the parent to hold the nursery school harmless.

### Speech and Language Annual Screenings

When grants are available the Mercy College School of Communications Disorders will conduct speech, language screenings and hearing screenings at school for a limited number of children recommended by the teachers and/or parents. Parental permission is required for this screening.

### Fundraising

**We are hoping to have an online auction this year to raise much needed funds for CNS. With reduced enrollment and added COVID costs we have accessed available fund that will need to be restored.** The Nursery School Committee keeps fundraising events to a minimum and as pressure-free as possible. Our usual fund-raisers may include CNS-shirts, sweatshirts, water bottles available in the fall and Class and Individual Photos in May. Plus an annual Spring Fundraiser and Auction Evening.

## Tuition

- **We have added Zelle to enable you to pay online using our email address at [cnsdobbsferry@aol.com](mailto:cnsdobbsferry@aol.com) Look for Zelle in your banking APP as it is a fast and easy to pay CNS tuition**
1. After June 30, 2020 no payments will be refunded. Refunds will only be made to families that have no outstanding balance.
  2. All parents will be asked to start their payments in July 1, 2020. Parents that need extra time can wait until August 1, 2020 but please note, class preference or enrollment will not be guaranteed. If no space is available, due to your pause in payment, please note that your contract payment is non-refundable.
  3. Parents will still be able pay in various options but there will be a monthly minimum due from each child in order to continue at CNS. With smaller classes it will be imperative that all payments stay on schedule.
  4. There will be no refunds for absence, vacation, force majeure, or reasons other than outlined above, whether voluntary or involuntary.
  5. Any student that withdraws from CNS prior to January 1<sup>st</sup> of the school year will be credited for payments made less the contract payment and class time in session.
  6. Any family that withdraws from CNS after January 1st of the school year will not be credited for payments made. Once you submit your withdrawal, you will not be refunded for time not spent at CNS including time that the school is closed.

School tuition is paid the 1st of each month, **July through March**, unless another option for payment has been authorized. Checks should be made payable to the **South Presbyterian Church** and **mailed** to:

**Community Nursery School  
P.O. Box 35  
Dobbs Ferry, NY 10522**

No checks will be accepted in person by the teachers. Please use the black mailbox next to the office door for tuition payments not mailed or other communications such as Scholastic Books order forms.

## \$\$\$ TAXES \$\$\$

Our Tax ID Employer Number is **13-1740405**. Your employer may offer an employee plan which allows you to deduct non-taxed money from your paycheck to pay for school tuition. We will

gladly give the receipts necessary for you to claim this money. Monthly receipts are available by checking off the appropriate section on your payment coupon.

## Child Abuse Policy

Community Nursery School adheres to its legal responsibility as mandated reporters of child abuse and neglect, suspected or actual, while maintaining a supportive atmosphere for the families throughout the process.

## Snow Days and Snow Delays

In the event of winter weather or other severe weather conditions that necessitates a delayed opening or cancellation, we use an alert system for phone, text and email system in addition to the phone message at the school's number 693-9072 which will advise you that there is a 1 hour delay, a 2 hour delay, or cancellation of classes. We follow the Dobbs Ferry Schools' decision to delay or close. They base their decision on the village police department's recommendation for road safety. Please consult the schedule below for your child's class time.

We will make up sessions lost after one week of your program is lost to weather .i.e. if the M-T 2s miss more than 2 days because of weather we will make up the subsequent missed sessions.

### **If Dobbs Ferry Schools Are Closed, Community Nursery School Is Closed**

**Below times to be REVISED as staggered scheduled for all schools are different  
CNS Closed Effective 10/29/20**

#### **Dobbs Ferry Schools One Hour Delay**

Betz AM 4s 9:15-11:30 AM  
Tarricone AM 4s 9:30 -11:45 AM  
Penirelli 3s 9:45 -11:45 AM  
Maugeri 2s 10:00 AM -12:00 PM

PM classes arrive at regular time

#### **Dobbs Ferry Schools Two Hour Delay**

Betz AM 4s 10:00 AM- 12 PM  
Tarricone AM 4s 10:15 AM- 12:15PM  
Penirelli 3s 10:30 AM-12:30 PM  
Maugeri 2s 10:45 AM -12:45 PM

PM classes 1:15-3:15 PM

**Call the nursery school to hear weather message 693-9072**

**Check the Dobbs Ferry Schools website: [www.dfsd.org](http://www.dfsd.org)**

**Extended Weeks – dependent on the COVID-19 situation and the need to make up regular school days**

We offer an optional Extended Weeks program after the close of the regular school year and before Summer Session for all of our currently enrolled children. It is a great bridge through June when your older children are still attending public school or summer camp is a long time coming.

Depending on the enrollment, we will combine children along age guidelines and groupings of children. For example, the PM 4s will be combined with AM 4s or we may combine the different 2s and 3s classes. Staff may be different from the regular year as not all of the staff participates in the Extended Weeks. When we see the enrollment numbers and ages, we will be able to determine classes and staff.

The format is a modified summer session and runs for two weeks in the mornings only - 4 days each week. Only children currently enrolled in our school are eligible for this session. There will be a maximum of 40-45 in any one week. Enrollment will be on a first come basis as unfortunately we cannot serve our whole population in the morning hours.

**Summer Session – dependent on the COVID-19 situation**

**Each summer we offer a Summer Session to our currently enrolled 2s and 3s. Summer Session operates for 4 weeks, Monday – Friday, 9:15 AM to 12:14 in July. The exception is July 4**

Enrollment is limited to 40 children per session. **Although this session runs for 4 weeks, we offer an option for 2 -3 week sessions.** You may sign up for one or both sessions

Our **Summer Session** is conducted half of the time outdoors in a loosely structured setting. Please consider this when choosing camp for your child if a more structured program is needed for your child. During a portion of Session 1 the incoming 3s will begin their mornings indoors until they are familiar with their staff, the playground, the schedule and know their “home space”.

Preference for enrollment is given to:

- 1 – Children currently attending our 2s and 3s program
- 2 – Children registered for the next school year at CNS
- 3 – The general public will be enrolled **after March 30.**

**Children attending our summer session must turn 3 years old by July 31.** Exceptions will be for children currently attending our 2s program after consultation with the 2s teacher and parents.

**Please sign by returning this page by mail or by email that you have read our handbook and new policies and understand them and agree to all within.**

**All CNS families voluntarily assume all risks to exposure to COVID-19. CNS has taken enhanced health and safety measures according to the CDC and NYS Emergency Regulations, but families must realize that an inherent risk of exposure to COVID-19 exists in any public place where people are present.**
